MAKING A CHANGE

FRENCH LAW ON ANTI-WASTE AND CIRCULAR ECONOMY

PUTTING AN END TO DISPOSABLE PLASTIC

The law provides for the gradual end of single-use plastic, starting in 2021. The aim: to rapidly eliminate all objects and packaging that pollute our daily lives (straws, disposable cutlery, cups, etc.).

BAN THE DISPOSAL OF UNSOLD GOODS

Unsold non-food products will be donated or recycled. These include daily hygiene products, clothing, electronics, shoes, books and household appliances, etc.

CREATE A REPARABILITY INDEX

Each Consumer will be able to know at a glance whether their product is repairable, difficult to repair or irreparable. The aim: to extend the lifespan of products..

STOP PRINTING RECEIPTS

The law plans to prohibit the systematic printing of all receipts and vouchers from 2023. The customer will have the choice to have a receipt if they wish..
